Bilateral Meetings

- Friday (10:10 - 12:15)
- Friday (13:00 - 15:00)

Description

We are a manufacturer of dimmable solar control glass. The glass turns blue via the touch of a button or automatically via a light sensor. The glazing acts like sunglasses for the building. Energy and light transmission are controllable.

Offer & Request

Solar control glass for office and industrial buildings

We are looking for planning offices, architects, metal construction companies, or manufacturers of winter gardens, interested in our innovative dimmable solar control glass.
